

Adventure / Advanced Open Water Course

The [Adventure / Advanced Open Water Course](#) has been dealt a bad rap! Many people feel they need to gain a lot of experience as divers before taking this course. How many times have you heard your friends say, "I think I'll take the Advanced after I get a few more dives in"? This is completely wrong!!! Our course is **designed to offer adventure & experience in a variety of dives at different dive sites**. People think they need to have the experience **first** and end up missing out on this adventure **under safe, controlled conditions**. For this reason, we have renamed the Advanced Open Water Course the "**Adventure Course**". If you know of someone who would like to **experience new types of diving** or make new dive buddies while interacting with the environment (feeding wolf eels & playing with octopus), have them give us a call! We can also show them how to take **underwater photos**, try out an underwater **scooter**, and boat dive! We'll make sure they dive safely, **have fun, and keep diving**. In addition, each of these dives count as the 1st dive of the related specialty, moving the student one step closer to the prestigious [Master Scuba Diver Certification](#). Also, those already certified in our Adventure Course are always welcome to **join us during any of our dives**. We encourage you to dive with us to gain additional experience and have fun!

Scheduling

As people become more involved in everyday life, having less time available for even recreation, we now offer the option of "**piecing together**" the Adventure Course (one dive at a time, if necessary) to accommodate the busy person's schedule. **You create the course**, by selecting which electives you want to try outside of the core Navigation and Deep dives. These electives can be anything such as Wreck, Drift, Night, Boat, Dive Propulsion Vehicle, or Photography to name just a few. Our goal is that you have fun and experience the underwater world in a **safe, comfortable manner**.

Your **course fee includes all rental equipment** (drysuit may be an additional charge), a minimum of 5 open water dives at various locations, compass rental, and a lot of fun!

Let us know how we can help!

"We'll Change Your Life!"
