

Wreck Diving Specialty Course

Exploring the H.M.C.S. Saskatchewan
&
H.M.C.S. Cape Breton!

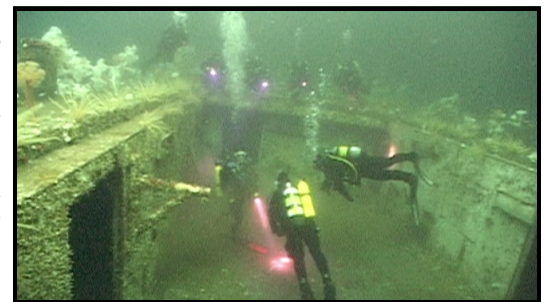

We are heading back to Vancouver Island to dive the wrecks of Nanaimo on **October 13th-15th, 2017**. These **ships were sunk to become an artificial reef** for divers to enjoy. Combined with the RivTow Lion Tugboat, the three massive wrecks make up the world's largest underwater artificial reef!

We plan to do 5 dives during the weekend, with 4 on the wrecks! The 366' Saskatchewan and Cape Breton hold a lot of history, some of which we cover during our Wreck Diving Specialty Course. The **70 - 80 foot visibility** enables a spectacular view of these ships as you descend down the mooring lines. Floating through the bridge, down the stairway and out through their sides brings an absolutely amazing experience!

Our **Wreck Diver Specialty** Course includes an academic session, video presentation, pool session, minimum of 4 wreck dives and **tons of fun!** We teach you how to **plan and execute a safe wreck dive** as well as proper fin and body positioning when diving on a wreck. We discuss the hazards associated with wreck diving, how to avoid them and deal with them in the unlikely event you have a problem. After playing on the wreck during the first day, **we explore together** and train you how to conduct a safe penetration dive into the ship.

Should you already be certified in Wreck Diving then you are welcome to join us for a spectacular weekend of diving these amazing wrecks as well as other favorite sites of the Nanaimo area!

Please be sure to contact the Dive Center today to register for this amazing weekend of diving the wrecks of Vancouver Island! For more information, click the following link:
